COURSEWORK

GRADUATE
Data Mining
Theory of Computation
Distributed Systems
Compiler Construction
Artificial Intelligence
Software Engineering
Computer Organization

SKILLS

PROGRAMMING

Proficient in:
Python • Golang • JS

Familiar with:
Rust • C • PHP

FRAMEWORKS/TOOLS

Proficient in:
HyperLedger Fabric • Ethereum
NodeJS • AWS Lambda
HSM/KMS • SQS
Docker • Git

Familiar with:
Corda • Firebase-tools • RabbitMQ
ReactJS • ElectronJS

EXPERIENCE

BLOCKCHAIN ENGINEER | Sovereign Wallet
Mar 2019 – Present | India

- Built transaction engine for cryptocurrency deposit/withdrawal
- Worked on decentralised identity management
- Setup exchange staking service for Tezos and Cosmos
- Working on zero-knowledge leaderless protocol development
- Keywords : Golang, Python, zkSNARK, Lambda, Serverless

BLOCKCHAIN ENGINEER | NetObjex Inc.
Apr 2018 – Feb 2019 | India

- Design and build enterprise Blockchain applications
- Led a team of five blockchain developers
- Keywords : Golang, HyperLedger, Ethereum, Corda

JR. SOFTWARE ENGINEER | Reubro International
Aug 2017 – Mar 2018 | India

PROJECTS

RXMED | Medical Data on Blockchain
Hyperledger Fabric
Develop a blockchain application that lets pharmacies, hospitals and doctors securely view and manage patient records. Also developed an automated bidding system for pharmacies.

TRUEFEEDBACK | Decentralised Survey Platform
Ethereum DApp
Developed a decentralised survey platform on Ethereum, that automatically pays users ERC-20 tokens on the completion of the survey. The survey is governed by a smart-contract that handles the pay out.

ACHIEVEMENTS

MOZILLA FESTIVAL 18 | London
Facilitated a session on how to build a decentralised data sharing platform using Blockchain.

FUTURE YOUTH SUMMIT 18 | Kuala Lumpur
One of the 500 delegates to attend the first ever FUYOH summit, brainstorming on the future of Digitalism

CERTIFICATIONS

CERTIFIED BLOCKCHAIN ARCHITECT Blockchain Training Alliance
